

The Federal Communications Commission
445 12th Street, SW
Washington, DC 20554

Dear The Federal Communications Commission,

I do not want to pay big businesses tax on telephone service! I urge you to reject a flat fee proposal that would change how taxes are paid to the Universal Service Fund.

Under the flat fee proposal you are considering, people who make few long distance calls would pay the same as people or businesses that make many calls. In other words, low-volume and primarily residential customers would bear the same universal service tax burden as a high-volume residential or business customers. This is typical soak the people you are supposed to represent. Those tax deductible lobbyists the over paid ceo's send to Washington are just one more defect in our system that should be illiminated.

I use my wireless phone for safety, security and convenience. I don't want to lose these benefits so that big businesses can pay less than their share. I urge you to reject the proposal to move the USF collection system to a flat-fee.

Keep the USF balanced!

Sincerely,

Alex Ferguson
